

VIRGINIA CLEAN MARINA PROGRAM

2001 Clean Marina Pledge

The Virginia Clean Marina Program promotes the voluntary adoption of measures that prevent or reduce pollution from traditional and non-traditional marinas and recreational boats. Operations that adopt these measures and are designated as a “Virginia Clean Marina” will be publicly recognized as environmentally responsible.

(name of operation) _____

I pledge to do my part to improve and maintain Virginia’s waterways by keeping them free of harmful chemicals, excess nutrients, and debris.

I will identify opportunities and implement practices to reduce and control pollution associated with:

- Marina design and siting
- Marina management
- Emergency planning
- Petroleum control
- Sewage disposal
- Waste containment and disposal
- Vessel maintenance and repair
- Stormwater runoff

I commit to actively pursue full standing as a Virginia Clean Marina. Within one year of the date below, I will implement the appropriate pollution prevention practices and will apply to the Marina Technical and Environmental Advisory Committee for designation as a Virginia Clean Marina.
